INTRODUCTORY NOTE.

The census, the statistics of which are embodied in this volume, was taken on March 18th, 1921.

The figures for the detached tracts of Central India, namely Nandwai, belonging to Indore State, and Gangapur to Gwalior State, which are situated in the Mewar Agency, are included, as before, in the statistics of the Mewar State, in the Imperial Tables and excluded from the Provincial Tables.

The figures for Nimrol village, situated in the Gwalior Residency, have been excluded from Dholpur State in the Imperial Tables and included in the Provincial Tables.

The figures for the Pargana of Sambhar held jointly by the Jaipur and Marwar Darbars, have been divided between the two States half and half in the Imperial and Provincial Tables.

The figures for areas under British Administration in Rajputana excepting the Abu District, are included in the Imperial and Provincial Tables in the statistics of the States in which they are situated.

A new District *viz.*, Abu has come into existence under British Administration in Rajputana. It is made up of the area leased out to the Government of India by the Sirohi Darbar. Its figures have therefore been shown separately in all the Tables and not included in the Sirohi State as in 1911.

Ajmer and Merwara, hitherto treated as two separate Districts, have this time been dealt with as one single district for the reasons given in note 4 to Table I.

The 22 inhabited villages, belonging to the Marwar Darbar and 92, belonging to the Mewar Darbar, which are all situated in the Merwara Sub-Division (District of Ajmer-Merwara) and administered on certain conditions by the British Government, have been excluded, as in 1911, from the Ajmer-Merwara figures in the Provincial Tables.

The optional Tables XIX and XX, prescribed by the Government of India, have not been compiled for Rajputana and Ajmer-Merwara.

The optional Table XXI-B has been compiled for Rajputana and Ajmer-Merwara.

In addition to the Tables prescribed by the Government of India, two special Tables have been compiled this time *viz.*, (1) XI-B showing immigration by age periods and selected birth places, castes and occupation for the City of Ajmer only and (2) XVII-B showing population following selected occupations by sex and age periods for all the Capital Towns in Rajputana and Ajmer-Merwara excepting Abu, Kishangarh and Lawa.

Detailed statistics of area, houses, population, religion, and literacy for the various administrative units (that is—Parganas, Tahsils, etc.) in the States and Districts, will be found in the Provincial Tables I and II at the end of this volume.

TABLE I.

Area, Houses and Population.***Explanatory Note.***

The States in Rajputana are arranged in this Table alphabetically.

There has been no change in the area of the Provinces (Rajputana and Ajmer-Merwara) since 1911 excepting that :—

An area of 6 square miles has been leased by the Sirohi State to the Government of India and a new unit under the name of the Abu District has been formed thereof, a corresponding reduction having been made in the State area.

The two districts of Ajmer and Merwara, having been formed into one, owing to the re-organization of the Province in 1914, have been treated as one unit in the Imperial Tables.

The areas and populations of the places under British Administration in Rajputana are as follows :—

	State.	Area.	POPULATION.		
			Total.	Males.	Females.
Abu District	Sirohi	6 sq. miles	3,606	2,147	1,459
Kherwara	Mewar	1 sq. mile	1,599	1,029	570
Kotra	Mewar	Ditto	857	485	372
Erinpura	Sirohi	Ditto	2,617	1,798	819

They have been included in the Tables, excepting those of the Abu District, in the figures of the States in which they are situated.

Hamlets have this time not been counted as separate villages but included in the main village.

TABLE II.

Variation in Population since 1881.

Explanatory Note.

No Census was taken in Rajputana in 1872: this Table, therefore, cannot be carried back beyond 1881.

In Ajmer-Merwara a Census was taken in 1872, but as it was considered untrustworthy another count was held in 1876. The figures in connection with it were as follows:—

Province.	Persons.	Males.	Females.	Variation 1876-81.	Net variation 1876-1921.
Ajmer-Merwara . . .	396,331	212,265	184,066	+64,391	+98,940

The figures for Rajputana for 1881, do not agree with the corresponding figures in the Volume of India Tables, as the former include 167,850 persons of the 3 parganas of the Tonk State, Chhabra, Pirawa and Sironj, which were situated in 1881 in the Central India Agency, but were omitted in the India Tables from the totals for that Agency, figures being given for Central India States only.

The States in Rajputana are arranged in this Table alphabetically.

The figures of Abu District relating to 1881 (Columns 6, 16 and 21) are included in the Sirohi figures.

TABLE IV.

Towns classified by population with variation since 1881.

Explanatory Note.

This table shows the population of all cities and towns. No Census was taken in Rajputana before 1881. The Table therefore cannot be carried back beyond 1881. In the District of Ajmer-Merwara a Census was taken in 1876. The figures in connection with it for the towns in Ajmer-Merwara were as follows :—

Towns.	Population 1876.	Increase 1876 to 1881.	Variation 1876 to 1921.
Ajmer	35,111	13,624	+78,401
Beawar	12,308	3,521	+10,054
Deoli		Figures not available.	
Kekri	4,885		+813
Nasirabad	20,097		—446

A city means (i) every town containing not less than 100,000 inhabitants, (ii) any other town treated by the Provincial Census Superintendent with the sanction of the Local Government, as a City for Census purposes.

Jaipur (in Rajputana) continues to hold its position which it did in 1911.

Urs fair has raised the population of Ajmer (in the British District of Ajmer-Merwara) to enable it to step into the first category. The remaining nine cities in Rajputana remain in the second category, Bundi and Dholpur having been newly added to the list.

A town was defined in the Imperial Census Code as including (1) every Municipality, (2) all civil lines not included within Municipal limits, (3) every Cantonment, (4) every other continuous collection of houses inhabited by not less than 5,000 persons, treated by the Provincial Census Superintendent as a town for Census purposes. But the numerical limit in the case of category (4) has been relaxed in Rajputana so as to admit certain places having urban characteristics, into that category.

Towns have been arranged in four classes, and alphabetically within the class. The number of towns in each class is as follows :—

Class.	NUMBER OF TOWNS IN .	
	Rajputana.	Ajmer-Merwara.
I.—20,000 and over	1	1
II.—10,000—20,000	17	1
III.—5,000—10,000	58	1
IV.—Under 5,000	56	1
TOTAL	132	4

TABLE VII.

Age, Sex, and Civil Condition.

Explanatory Note.

The Table is divided into three parts, each showing the distribution of the population by age, sex and civil condition.

Part A—Is the summary for the Province, as a whole, of the distribution of the total population (all religions) and of each religion. The figures for the Indian States and the British District of Ajmer-Merwara have been given separately.

Part B—Shows, for States and District, the distribution of the population (all religions) and of each main religion (Animist, Christian, Hindu, Jain, Musalman, Sikh).

Part C—Shows, for each City, the distribution of the total population (all religions).

In parts B and C the age periods are given in less detail than in part A, those for the individual years 1, 2, 3, 4 being compressed into one period 1—5 and those from 20 onwards being compressed into 5 periods 20—30, 30—40, 40—50, 50—60 and 60 and over.

The ages of the people recorded in the Census Schedules represent the actual number of completed years on the day of the Census, not the current year of age. Divorced persons have been included in the heading "widowed," provided that they were not re-married.

TABLE VIII.

Education by Religion and age.

Explanatory Note.

This Table deals with the literacy of the population, classified by religions and age periods and in general arrangement, closely follows Table VII. But only four age periods are shown, *vis.*, 0—10, 10—15, 15—20, 20 and over.

The literates shown in Columns 5—7 include literates in English, appearing in Column, 11—13. The totals in Columns 2—4, therefore, represent the aggregates of columns 5—10 only.

Christians have been sub-divided into (a) Indians and (b) 'Others' in Part A of the Table to illustrate the extent of literacy among Indian Christians.

Explanatory Note.

The castes selected for this table are :—

- (i) those which number about 3 per mille of the population of the two Provinces combined, except Dangi, Gadaria, Jogi, Kunbi, Sadhu, Sheikh, Sirvi and Sondhia.
- (ii) those of local or general interest, viz., Charan, Kaim Khani, Mer, Merat Gorat, Merat Kathat, Moghia and Sansi.
- (iii) Christians including Goanese, Indian Christians have been distinguished from others.

2. The figures in columns 3, 4 and 5 will not always agree with the corresponding figures in Table XIII for the reasons given below :—

- (ii) After the compilation of this Table, amalgamation in some of the castes, has been made in Table XIII.

3. Regarding the figures of literacy in English, a reference to the Explanatory Note to Table VIII should be made.

TABLE XI.

Birth-place.

Explanatory Note.

This Table shows the birth-places of persons enumerated in Rajputana and Ajmer-Merwara. It is divided into two parts:—

Part I.—Contains the statistics of birth-places separately for the two Provinces and for each State comprised in Rajputana. It also gives separate figures (also included in the figures of the District or State) for persons enumerated in eleven towns treated at the census as "Cities."

Part II.—Shows the birth-places of immigrants enumerated in the city of Ajmer by age groups (0—15, 15—40, and 40 and over) and the most important or interesting occupations or means of support among certain selected castes or races, which have been chosen either for their numerical importance or their local interest. Various places of birth have been classified and arranged in part I, in accordance with the principles, followed by the Census Commissioner in the India Table XI.

Only those Districts or States have been shown separately in which 1,000 or more, in Rajputana and Ajmer-Merwara combined were born. The remaining Districts or States of each Province have been amalgamated under "Others."

Countries (Asia outside India and Europe) in which less than 20 persons were born have been clubbed together under "Others" in their respective heads.

Details of these are as follows:—

TABLE XIII.

Caste, Tribe, Race or Nationality.

Explanatory Note.

This table is divided into two parts. Part I shows in alphabetical order by sex and religion castes selected for this table. Part II gives the distribution by States or Districts.

Only those castes have been taken which contributed 2 per mille or more to the population of the two Provinces combined. Certain castes, viz., Merat-Gorat, Merat-Kathat, Lakhera, Manihar, Mochi, Rangrez, Sansi, Moghia and Rawat of particular local or general interest have, however, been added.

The figures for the remaining castes have been shown under the head "Others." As far as possible entries in the Schedules which were synonyms, or Sub-castes, or were local equivalents of a true caste, have been amalgamated with the castes to which they appeared to belong, after possible necessary enquiries, local or otherwise. A complete index of castes returned in this Census appears as an appendix to the Administrative Volume.

TABLE XIV.**Civil Condition by Age for Selected Castes
and Tribes.*****Explanatory Note.***

Castes for this table have been selected from among those, wherein infant marriages were found to be over one per cent of the total population of the caste concerned.

Brahmans, Mahajans, Kayasthas, Rajputs and Christians have been included owing to their importance in society in place of Kasai and Fakir as their inclusion was considered unimportant.

Separate details by religion have been given only for those religions, which number 500 or over in a caste.

The caste *totals*, however, include *all* religions.

Explanatory Note.

This Table corresponds with Table XVIII of 1911 and is divided into two parts :—

Part A.—Gives statistics by age and by State or District for all European and Allied Races, including Armenians.

Part B.—Gives similar statistics for Anglo-Indians. For definition of the term "Anglo-Indian" *vide* the explanatory note to Table XV.

Europeans have been sub-divided into (i) British Subjects and (ii) Others. Both the parts exhibit statistics for cities separately, which are included also in the State or District figures.

The States which do not contain European or Anglo-Indian population have been omitted.

The following table shows the age periods of Armenians in the Province :—

TABLE XVII.

Occupation or Means of Livelihood.*Explanatory Note.*

This table corresponds to old Table XV-A and is divided into two parts :—

XVII-A.—Part I is a Provincial Summary. Part II shows by States or Districts the occupations or means of livelihood which were returned in the Schedules as the principal means of support.

Separate figures for Cities are given in Part A (II) but these are included in the State and District figures as well.

XVII-B showing population following selected occupations by sex and age periods for all the Capital Towns in Rajputana and Ajmer-Merwara, excepting Abu, Kishangarh and Lawa.

The method of classification of the census of 1911 has been adopted, with certain modifications suggested by the Census Commissioner. The number of classes and sub-classes remains the same, but the number of groups within the orders has been amplified by raising them from 169 to 191. The appendix to this Table shows how the groups of 1911 compare with those of the present census.

The groups, under which no occupations were returned, have been omitted.

To meet the local requirements the following groups have been sub-divided :—

Group in the Scheme.	Sub-division.
156 Army (Indian States).	{ 156 Army (Indian States).
	{ 156(a) Army (Indian States, Imperial Service Troops.)

Part A has been prepared for Europeans, Anglo-Indians and Armenians and for 26 selected castes.

The castes selected for this table are those very castes which have been dealt with in Table XIV. They represent fairly every strata of society and have definite traditional occupations.

Table XVI of 1911 which corresponds with this table was prepared for Europeans, Anglo-Indians & Allied Races only.

Columns 7-10 are intended to show the extent to which traditional occupations are followed, while columns 11 & 12 are designed to make it possible to discount the tendency of functional castes to return their traditional occupations as their means of livelihood. The figures in the subsequent columns are exclusive of the number shown in columns 7 & 8 as following the traditional occupations.

The population dealt with in this table includes only those who have returned the name of the main castes and not of sub-castes or synonyms subsequently clubbed together in Table XIII.

TABLE XXII.

Industrial Statistics.

Explanatory Note.

This table classifies the information about industries which was collected in a special Industrial Schedule filled in by the Owners, Managers or Agents of factories, etc., in which more than 10 persons were employed on April 1st 1921.

This Table is divided into seven parts.

Part I of this table contains information regarding each kind of factory, mine, etc., in the Provinces as a whole, distinguishing between those factories in which mechanical power is employed and those in which it is not and classifying them according to the number of persons employed (with detail of skilled and unskilled.)

Part II shows, for each State or District, the number of persons employed in each class of industries, without the details given in Part I.

Part III shows the number of Industrial establishments classified according to the class of Owners and Managers.

Part IV shows the Caste or Race and Birth-place of Skilled Workmen classified according to their Industry and Occupation.

Part V shows the Caste or Race and Birth-place of Unskilled Labourers classified according to the Industry in which they are working.

Part VI shows the details of Power employed for (1) Establishments using steam, oil, gas, water, etc., (2) Establishments using electric power generated on the premises, and (3) Electric power supplied from outside.

Part VII shows the number of looms in use in Textile Establishments.

PROVINCIAL TABLE I.

Area, Houses, and Population of Administrative Units.

Explanatory Note.

The two Provincial Tables in this Volume give statistics for the administrative units in the States and Districts *e.g.*, for Tahsils, Nizamats, Parganas, Towns or whatever the local unit may be called.

This Table shows for each unit its area, number of towns and villages and of houses in urban and rural areas, population (Urban and Rural) of 1921, density of population per square mile, population of 1911 and percentage of variations for 1901-11 and 1911-21.

The units have been arranged as far as possible in alphabetical order, except that the capitals of States and Districts have been printed first in each case, and towns whose areas are shown as included in that of some Pargana, etc., have been printed immediately next to such Pargana.

Many of the units have been completely changed since 1911. The figures in columns 14 to 16 therefore, will not always agree with those of the previous censuses. Adjustment could not be made as detailed information regarding area and population was not available.

The areas given in column 3 for the administrative units are merely approximate ones, being based on the rough revenue records of the State.

The following are the differences between the figures in this table and those in the Imperial Tables :—

- (i) In the areas of Rajputana, Alwar, Dholpur, Jaipur, Karauli, Marwar, Tonk, Sirohi and Ajmer-Merwara, owing to the Imperial Table figures being based on the Imperial Survey and those in this table on the latest revenue records.
- (ii) In all the figures (except urban) for (a) Rajputana, Marwar, Mewar and Ajmer-Merwara, owing to the inclusion in this table in the 1921 figures for Rajputana, Marwar and Mewar, of the villages belonging to these States which are situated in Ajmer-Merwara; (b) Rajputana, Dholpur and Mewar through the inclusion of Nimrol village (shewn in the Gwalior Imperial Tables) in Dholpur, and the exclusion from Mewar of the Parganas of Nandwai of Indore and Gangapur of Gwalior (shown in the Central India and Gwalior Provincial Tables).

PROVINCIAL TABLE II.

Administrative Units by Religion and Education.

Explanatory Note.

This table gives, for Administrative Units, details of religion for Animists, Christians, Hindus, Jains, Musalmans and Sikhs, the remaining religions being amalgamated under the head "Others" and of education by the three age periods 0-15, 15-20 and 20 and over.

Discrepancies will be apparent between the figures in this Table and Imperial Tables VI and VIII in the case of Rajputana, Dholpur, Marwar, Mewar and Ajmer-Merwara. The reasons for these discrepancies are given in the Explanatory Note to Provincial Table I, to which a reference should be made.
